PROFILE

I'm Muhammad Saleh, a front-end developer skilled in HTML, CSS, JavaScript, Bootstrap, PHP, WordPress, and basic on-page SEO. I convert prototypes (Figma, XD, PSD) into custom-coded, responsive websites. With extensive experience creating landing pages and websites for various niches like business, real estate, and portfolios, I deliver stunning, user-friendly web experiences on platforms like Upwork and Fiverr. My attention to detail ensures flawless functionality and captivating designs.
